

**CAN YOU
MATCH THE**

PRODUCT

TO THE

PLANT?

Match the Plant to the Product Instructions

This has proved a popular activity at events where it has been used to attract people to visit our stall. It gives an easy way to start a conversation about Fairtrade and some of the products Shared Interest lends finance for. Instructions in how to use this simple activity are as follows.

- Print all the Plants sheets and Products sheets and the 'Can you match the plant to the product?' sheet (if you would like us print you a set get in touch).
- Lay the Plant sheets on your stall / board and invite people to match the product to the plant.
- Make sure you know the answers (see overleaf).
